These foodstuffs will be sold at the prices named in those public schools selling Government foods. They are being taken from the warehouses as fact as possible and the Commissioner said he expected to have them on sale to-day or to-morrow. Dr. Day said that Wednesday's receipts emounted to \$68,000.

Heavy Sales at Schools.

Reports of food sales in the school buildings of West Harlem and Washington Heights showed themselves las night to be heavier than in any day of the previous two weeks. At P. S. 186, 145th street and Broadway, about twenty cases of canned bacon were sold in three hours yesterday morning. All canned goods sold well, but dried fruits lagged a bit. Other schools reported an increase over Wednesday's sales. "The market will be con-ducted on the cooperative plan and will ave ten departments-meat, bread, fish, fruit and vegetables, dairy, delicatessen, grocerles, household utensils and a res-taurant. Each department has been rented to a specialist who buys foodstuffs directly from the producer and he will sell to the public at wholesale a

He explained that a special depart-ment had been created where wholesale foodstuffs would be sold at no greater profit than I cent a pound. Clarence Y. Palitz, chairman, codification of ordinances, who was instru-mental in bringing the new market into

being, said in connection with the 1 cent n pound profit: "The average layman may think it is impossible to sell at such a margin, but when you consider the average price per pound to be less than 20 cents, and 1 cent representing the daily overturn, it is a reasonable profit if sold in large quantities."
